LOCAL MATTER.

E. C. WOODSON, City Editor. The subscription list of the DAILY NEWS is larger than that of any other Daily in the State, and is double that of any other Daily in Raleigh. Advertisers should make a note of this.

Post-Office Directory. For the benefit of the Public, we publish the following Directory of the Postoffice of this city:

Office hours for delivering of mails from 8:30 a.m., to 6:30 p. m.

Money Orders are issued and paid from 9:15 a. m. to 4:00 p. m. Letters can be Registered from 9:15 a. m to 4:00 p. m.

No mails sent or received on Sundays. W. W. HOLDEN, Postmaster.

LOCAL BRIEFS-

The new moon has put in an appearance.

People who advertise are those who set their sales for the trade winds, Messrs. Julius Lewis & Co. have for sale six horses. See notice. Jas. P. Hayes pays the highest cash

For wagons, wheelbarrows and repairs go to Plumadore's.

The numerous flower gardens in the city are fast putting on their prettiest looks.

The Hook and Ladder Company was reviewed by Mayor Separk yesterday, and he expressed himself as well pleased with the appearance of the Company.

The papers all over the State rejoice in the redemption of Raleigh from Radical rule. Thank you brethren, but you have no right to feel any better over the glorious result than

The Rescue Fire Company will not attend the Centennial, for reasons as stated in the card to be found elsewhere. We regret that they feel compelled to decline the invitation extended them.

THE RIGHT MEN IN THE RIGHT PLACE.—In the distribution of the various city offices we hope the Board of Aldermen will keep an eye single to the importance of selecting good, true and tried democrats-men who have worked in the harness, and known to be of the right stamp. The appointment of "wishy-washy" politicians will not suit the demands of the people.

INCREASING .- Our family continues to increase in numbers. Yesterday Mr. G. T. Stronach presented us with a beautiful specimen of an African Parrot, Pol by name, imported by him direct from the wilds of Africa. Upon taking an inventory, we find the family to consist of "Jack" the dog, a cat and three kittens, the mocking bird, pet canary, Pol the parrot and a tame coon. The whole Menagarie is under the especial charge and control of our ever faithful "Betsy"-and "dat ish

de kind of man ve ish." CORRECTION.—In the proceedings of the Board of Trustees of the University, published yesterday, our types made us say in one place "B. F. ANNIVERSARY CELEBRATION .-The Raleigh Hook and Ladder, company, Capt. Lamson commanding, celebrated their 8th anniversary yesterday by a street parade and target exercises at Bledsoe's Grove. This is one of the best equipped and is composed of as good material as any Fire Company in the city of Raleigh. They are generally the first at every fire and their gallant exercises have been observed and appreciated. Capt. Lamson, the foreman, has served several successive terms in the position and his sub officers, are men of skill and daring that honor the positions they

occupy. After parading the principle streets of the city, the company repaired to Bledsoe's grove, where a sumptuous barbecue with other luxuries awaited them. At the word of command the company disbanded and the work of demolition of shoat and lamb, Walker's bread, cigars and lemonade commenced. To say that every man performed his work well would hardly render justice.

A large number of invited guests and honorary members participated in the general jubilee, and as one of the latterpresent and accounted for we can say everything passed off well and pleasantly.

Before the dinner the target shooting came off, and quite a number of the active members participated in the shooting.

Mr. Taylor won the first prize, a silver sugar-dish. The second, a beautiful chromo, was won by Mr. Woodward.

The contest between the honoraries was also quite animated, and quite a number of contestors entered for the prizes. Mr. R. H. Bradley won the first prize, a turkey gobbler, and the prize of a tin medal for the poorest shot was awarded to Geo. T. Stronach, (of course). Mayor Separk, in his happy and felicitious style, presented the prizes, each gentleman briefly responding on receiving the articles.

It was indeed a pleasant affair throughout, and will long be remembered by those that participated in the enjoyments. The Citizens' Cornet Band furnished the music for the occasion, and in their handsome new uniform presented a live appearance.

DISINFECTANTS .- Spring is here, when the air is charged with gases from decomposed animal and vegetable matter. These will find their way into dwellings-indeed they will generate there, unless we have the means to arrest them, which, happily, we have but which, unhapon the streets. It is in violation of a pily, we avail ourselves of too little. The greatest scrubbing and care will not prevent the accumulation of some foul, invisible material in the air, however well the rooms may be ventilated. The human body itself is a source of noxious emanations. Something in addition to cleansing has to be resorted to-disinfectants. Now that their virtue has become known, they are considered indispensable to housekeeping. They are most efficient means. There are two species of disinfectants, the one preventing decomposition, the other neutralizing its product. Of the former are copperas (sulphate of iron), permangnate of potassa, and best of all and cheapest, and is always at hand, common salt. This, or any of there, put into spittoous, sewers and other places where decomposition threatens, will arrest the formation of gases. But the air is not affected by these, or to only a slight extent. This it wants the other class, which are volatile, to do. These are chlorine, in the form of chloride of lime, iodine, carbolic acid and others. Carbolic acid will destroy the germs of putrefaction, and is the enemy ofinfection. Chlorine acts both as'an intiseptic and a purifier of the air, the latter by forming chemical change in the injurious compounds. Its odor is somewhat objectionable, as is that also of carbolle acid, iodine less so. A little kept anywhere exposed in a room will be sufficient. The two

> pleasant by ventilation-small means to effect important results. THE UNIVERSITY.-We have already commended the enthusiasm of the Trustees of the University who were present at the late meeting. Besides them several others wrote to the Secretary deeply regretting that conflicting business of paramount importance prevented their participating in the meeting, and expressing their earnest wishes for the restoration of the University, and intention to work heartily for the attainment of that object, viz: Messrs Z. B. Vance, Paul B. Means, R. B. Peebles, W. H. Day, W. L. Saunders, and others; but Saunders writes that nothing but confinement to a sick bed could prevent him attending .-One of the others asserts, "there are few things nearer to my heart than the resucitation of the University, which, considering that he is a bachelor, is no light expression of devotion

UNCLE Jo.-"I say Uncle Jo, are you going to grind your axe?" "Well, yes if I can get a Turn er."

LARGE SALE. - Messrs. A. C. Saners & Co. have sold this season over 1,200 tons of guano. This fact is attributable to several causes. First his liberal advertisement in the DAILY NEWS. Second, the superior quality of the goods, and thirdly the popularity of this gentlemanly firm of commission merchants. We are always glad to note the prosperity and success of our young men.

We call attention to the new advertisement of Z. W. Gill grocer and liquor dealer of Market square. He keeps only first class goods in his line and the public may be satisfied that when they purchase of him they are dealing with a fair, square and honorable man. Minors are not admitted to his sample rooms but legitimate dealers can always find good liquors at low prices.

Candidates for city offices are as thick as blackberries in June .-Among the large number of applicants we notice the name of Capt. Green, the chief engineer of the Rescue Fire Company, who desires the position of washing out the Market House before the white authorities take their places. He should be elected by all means. Frank Stronach is also a candidate, but finding that we, and 70 others were candidates for the same position, he magnauimously withdrew. It is in justice to him to state that he sought a position on the smelling committee.

Resolutions of the Rescue Fire Com-

[PUBLISHED BY REQUEST.] The Rescue Steam Fire Company held a meeting last night, and after considering the following correspondence, adopted the subsequent resolutions. They are published by us at the request of the company:

RESCUE HALL, RALEIGH, N. C., May 7, 1875. Gentlemen:

Your Committee beg leave to submit the following report: Being appointed to correspond with the President of the R. & D. R. R. Co., to ascertain the lowest rate for which he could furnish transportation, from Raleigh to Charlotte and return, to fifty members, also a flat car for engine and hose carriage: We wrote to Pres't Buford April 15 h, to which no response was made. On April 26th, our active member, the Hon. W. A. Smith, whom this company still cherishes with gratitude, for the kindness extended them four years ago in furnishing transportation for his company at \$2 free transportation of Band and Engine to and from Charlotte, being in the city requested us to again address him (Col. Buford). Again we wrote to Pres't Buford on April 26th, and he referred our letter to S. E. Allen. Gen'l Ticket Agent, who referred it to his cierk with the following result: GREENSBORO, N C, May 4, 1875.

Jos. H. Green, Esq., Raleigh, N. Dear Sir:-Mr. Allen before leaving for New Orleans instructed me to say to you that having had your letter to the President under consideration, make your company is one cent per mile, from Raleigh to Charlotte and return for \$3 50 each. He says while the company would be glad to transfer all such organizations free, it cannot possibly do so and hope, the rate offered which is about actual cost will be satisfactory. That no partiality is intended in giving the Raleigh Miliary Companies free transportation, but it was deemed advisable.owing to limited numbers of such organizations in the State, to make the cele bration a more complete success.

Very Respectfully, C. E. Potts, Clk. Tk't Dept. Respectfully submitted,

J. H. GREEN, Committee on Arrangements. Upon motion the report of the committee was received and they asked

to be discharged, and that the followng resolutions be passed: Resolved, That the thanks of this Company be tendered to President Buford of the Richmond & Danville Railroad for the kindness extended to this company for the reduction in the fair in our behalf, but respectiul-ly decline to accept for the following

easons: First, as members of a large and influential Company, we think we were entitled to more respect than for our communication to be referred to the lowest officer at that point, and that after the first letter had

never been noticed. Second, that as we applied for the ise of a flat car for transportation of engine and hose carriage, and no notice was taken of that, we could not think of attending a Centennial without it, as we would be as useless

s artillery without guns.
Third, that it is the sense of this Company that the Fire Department of this State are equally as useful as the Military are ornamental and one s entitled to as much respect as the

To the gallant Fire Department of Charlotte we send you our heartfelt thanks for your kind and generous nvitation to participate in tivities of your Centennial, and while est assured the mind's eye will wanler back with joy, gladness and gratitude for your kind, generous and open-hearted welcome extended to us four years ago, such as only oc-curs once in the life time of a fireman; and while we would be pleased to be with you, circumstances which we have no control alone pre-

vent us.

Resolved, That a copy of these resolutions be sent to President Buford, and the city papers be requested to

THE WEATHER TO-DAY.-Says "Old Prob" stationary temperature, cloudy weather and possibly rain.

CONUNDRUM .- The Sentinel says in the spelling match at Richmond J. M. Price ran off the track on the word "gauge." Now why is the Editor of the Sentinel like J. M. Price? Answer to-morrow.

ASCENSION DAY.-Yesterday was Ascension Day, and services appropriate to the day were held in Christ's Episcopal Church, Rev. Dr. Marshall officiating.

P. F. PESCUD JR.-Mr. Pescud is the youngest member of the Board of Aldermen of the city and received the largest vote cast in his ward. This is a deserved and well merited compliment, and we have every reason to know that he will bear his honors with that dignity becoming the true gentleman that he is.

HEBREW SUNDAY SCHOOL .- We are pleased to learn that our Hebrew friends in the city have organized a Sunday school in the city which is now in active operation every Sunday in the hall over M. Rosenbaum's &Co., store on Fayetteville street. Mr. S. Rosenbaum, is the Treasurer and G. Rosenthal, the Secretary. We learn that it is contemplated to erect a Synagogue in the city at an early day. We wish the movement success, and judging from the well known enterprise of that good class of our fellow citizens we have no reason to doubt that they will soon ac complish their object.

"JUST OUR LUCK."-Yesterday morning the streets were flooded with handbills stating that Jo Turner would speak at the Court House last night. He had said so much about his great popularity in Raleigh and Wake county, that we naturally expected a perfect ovation, and left our columns open for a column article for his speech. The circular said that he would speak on "Rings, how the Raleigh NEWS was run by Dr. Hawkins, Boss Tweed," &c., and we went to hear what was said. But to our surprise and his mortification we found only six persons present. He did not come to the front and we left sorely disappointed. This is the fourth attempt since the "change of gauge" Mr. Turner has made to draw an audience in Raleigh to hear him on Rings, Boss Tweed, &c., and doubless his last.

THE CATAWBA WHITE SULPHUR SPRINGS .- We direct especial attention to the advertisement of White Sulphur Springs, strated in Catawba county, near Hickory station, on the Western North Carolina Railroad. We attended last summer most of the resorts in the West and we have no hesitancy in saying that the accommodations at the White Sulphur are surpassed by none in the State and far superior to many of them. The hotels and cottages are comfortable and well furnished, the bill of fare is excellent and the waters are said to be of the best in the South. The location is as pretty as nature could have possibly left it and Dr. Elliott, the proprietor, has added all that art can do to adorn. Take it all in all, the White Sulphur is one of the most attractive resorts in the State and no one will regret his choice should he

visit them. A FRENCH STORY .- All the people in a Paris house were startled at night by a tremendous noise made in an upper apartment. Rushing to the doors they saw a man coming down four steps at a time. He was arrested half dead with fear. He was a thief, had made his way in with a false key and feeling his way about the apartments from room to room to find valuables, had come upon some strange, soft, movable, upright thing in the middle of a room. He felt of it, pas-sed his hand higher, and felt a face cold as ice. Frightened, eager to escape, he could not find the way ot door, and in his flight upset every article of furniture in the apartment. Then they all went up stairs, and found the tenant of the fourth floor hanged in his room.

Indian Troubles.

St. Louis, May 5.—A dispatch from Kansus City says that dispatches from Wallace, Kansas, state that the Indians continue their attacks on hunters and herdsmen. A gentleman named Francis, with an outfit and three mules, was driven in this morning after a lively skirmish with Indians near Landman's Fork, 50 miles north of Wallace. He was shot at several times, and has about a dozen bullett holes in his clothes. His escape was miraculous. Reports say that bands of Pawnees, Cheyennes and Sloux are crossing the road and moving northward. The government has ordered out troops for the protection of the settlers.

Garibaldi was once expected to visit Victor Hugo at Guernsey, and the poet, says Miss Susan Coolidge had a state bedroom fitted up for the benefit of the hero, the most striking ornament being a bracket holding an ivory skull with the inscription; "Nux, Mors, Lux!" Every room in Hugo's house is ornamented with a carved or illuminated sen tence. "Exilium vita est" decorates the dining-room; the saloon has 'L'homme souffle ou il vent, Phonneur ou il faut," and in the library one reads, "Les Dieux pour les vainquers, cat on pour les vaincus."

Alfonso is getting in a bad way. Part of his troops have revolted, the balance are hemmed in, and it looks very much as if he were on the "rag-ged edge."

A Mississippi man puts it thus: "At the earnest solicitation of those to whom I owe money I have con-sented to become a candidate for PRICE: FIVE CENTS.

An unfortunate confusion in the

types caused an Iowa editor to announce that a patron of his paper was "thieving as usual." It was written "thriving."

It has been decided in a French

court that the landlord who fails to have his guest duly awakened to catch the trains they wish to take is liable in damages.

salisbury, the 22d day of June, 1875 at Public Auction, to the highest bidder, all the franchises, road, road-beds, rolling stock and property of every kind, mature and description belonging to the said, The Western North Carolina Kalikoad Company, mentioned and described in the said Decree.

The purchaser or purchasers will be required to pay to the Commissioners Ten Thousand Dellars in Oash on the day of saie, and will be given credit for the balance of the purchase money until Monday the 5th day of July, 1875, the first rule day of said Court, at Greenboro, N. C., mext ensuing after the day of saie.

Those who purchase at said sale, provided they be holders of the bonds secured by the mortgage mentioned in the said Decree, may retain their shares of the purchase money, except as to the said sale, provided so soon as the said the said bonds.

The said Commissioners are authoried, so soon as the said tale shall be confirmed by the Court, to give immediate possession of the said Railroad, its property and effects of every kind and description; and all persons who may be in possession of the said Railroad or any of its property are commande: to surrender the same to the purchasers upon the production of the Commissioners' deed to them. This road, when its connections shall be completed, will form one of the most IM-portant Thorough Marks, in the entire south. Its length is 142 miles, of which 115

south. Its length is 12 miles, of which 115 miles is complete; that is from Salisbury to Old Fort in McDowell county, at the Eastern base of the Blue; Ridge; and the greater part of the remainder of the road is graded, or nearly so.

There has already been expended upon this road, about \$6,000,000.00. It is now sold to satisfy a debt of about \$1,000.00 (0) which constitutes the first lien upon the property. The Commissioners believe that the title of the purchaser will be good.

AND now Commissioner Douglass has had to walk the plank too. He is as mad as a man ought to be who is suddenly disturbed in his pleasant dreams of power and money, and who is turned out of doors before it is quite prudent for him to go. It is not our fight and we have nothing to say to deprecate the wrath of the President. In fact, so much the better for us, for he is only hastening the disintegration of his own party by offending powerful friends.

THE PRESS CONVENTION.

A new charm is added to the promised pleasures of the Convention by the offer of the Baltimore and Wilmington Steamship Compate to put their splendid steamer Raleigh at the disposal of the Association for an excursion down the river. The compliment is the greater as the steamer will be sent from Baltimore for that especial purpose. Let friend Harrell bring along his note book s.

CLIMATE OF NORTH CAROLINA:

We will have nothing to say about late spring frosts, and the blasting of the hopes of truckers, and fruit growers. It would be right difficult to find an apology for these things. They defy philosophy and they admit no excuse. But then we are no worse off than others; all suffer alike, and no section can plume itself upon exemption from these caprices of weather.

But it must strike every reader and every observer how remarkably exempt our State is from those terrific tornadoes, and destructive tempests which North, South and West of us, every year bring desolation in their path. Such things tion, for its extravagance and its Amsworth to attach some potatoes are comparatively unknown here-so rarely, as to form an era, and a topic for fireside gossip years afterwards. The storm in March, light as were its effects compared with those in South Carolina and Georgia, will long be remembered. But it left marks here that will be effaced before the summer is over, while in those other States the voice of mourning will resound for many a long sad day, and the track of ruin will require generations to refill.

Another and scarcely less disastrous storm has recently swept over the same path, while, unless from a totally abnormal condition of the atmosphere, the elements of North Carolina may be relied upon to maintain their Rip Van Winkle quietude, inviting most pleadingly the eyes of the immigrant who looks with dread upon the tempestuous skies of the Northwest, and the no less dreaded turmoil of a farther Southern sky.

RESTRICTIONS.

The Salisbury Watchman argues the question of restrictions with force and good reasoning, on one view of the subject. Abstractly, we will admit that the Watchman is right in its opposition to restrictions.

Yet that journal must admit that without restrictions imposed, the Convention could not have been called, and we know that the Watchman was too strongly wedded to the idea of the call of a Convention to abandon it to maintain an abstract notion of right. A legislature may | tween these two journals have been not bind a convention without the consent of the people. It would be the work of an agent restraining had little to do. Even if personal and controlling the principal; of relations with the editor of the Senthe servant binding his master.

But the Watchman will remember that the Convention was not to warp judgment upon matters called hastily. It was the work of that appertain to the public, or long deliberations both in the Legislative Halls, and with the people, ests of the Democratic party. and before the question came up for to vote for each and every restricpeople lest certain commendable blindly records all its decrees. and necessary features in the Canby | The Gazette errs, we think in Constitution should be destroyed construing the article in the News

The restrictions are therefore not the exercise of unauthorized power, nor do they establish any precedent for its subsequent abuse. The pecple, the masters of the Legislature, are the responsible parties, not their representatives.

It therefore does not so much resolve itself into a question of policy, though we have before treated it as such, as one of obedience to the will of the people, expressed freely to their servants, and to be expressed still more strongly at the August | harmony. But the preservation of election.

We know that Mr. Cameron's name was mentioned in connection with the Convention. We know that one of Mr. Cameron's political friends told us that Mr. Cameron sought his aid and influence to bring him for-ward as a candidate.—Sentinel of the

Yes, our name was mentioned in connection with the Convention, by Mr. Turner, in the meeting ; by no one else, and no where else. We deny most emphatically that we ever spoke to an individual on the subject of the candidacy. We never thought of it, never desired it. would not have accepted it, most certainly never sought aid or influence from any personal or political friend. Let Mr. Turner produce his affidavit. It will be a curiosity of perjary.

Mr. Turner persists in this statement as he has done in many others. The people of Orange know so well to the contrary, that it perhaps will have the good effect of convincing them that other charges so pertinaciously stuck to, have as little foundation.

NORTH CAROLINA ELECTIONS.

Our friends of the Petersburg Index-Appeal comment pleasantly and cheerfully upon the results of the municipal elections in this State in an article which we re-produce elsewhere. That journal accords fully with the opinion here that the results of this election foreshadows clearly that of the one in August.

The truth is that the Radical partv in the State has no rallying point, and no cardinal principles. It is losing its hold upon the negroes, its main source of strength. The passage of the Civil Rights bill has weakened its hold upon the whites, for however inefficient the bill has proved in practice, its intention was plain enough. The condemnation of the party in the North for its violations of law and of the Constitucorruption has destroyed that overshadowing influence it had a few years ago as the great party of the country. It is no longer the aggressor. It no longer marches on to conquest. It cowers pitifully on the defensive; and a criminal on the defensive attracts no new friends.

There will be no faltering in North Carolina. The Democratic party is moving steadily on to secure its victories, and to give security and prosperity to a people so long drinking the very dregs of bitterness.

STRANGE DOCTRINE. The Fa tteville Gazette comments upon our article in the News of the 29th of April in relation to the Orange County Convention as "a remarkable article," conveying strange doctrine. Perhaps by this time the Gazette has had the opportunity of learning through tle co'umns of the Recorder and the Tobacco Plant, newspapers published in Orange, that the article in the News was not so extraordinary, because it was a modera'e allusion to facts, the full detail of which would bring no credit upon the Democratic party of the

The Gazette does us simple justice when it believes that the quarrels between the News and the Sentinel would not induce its editors to justify bolting, or to advise such on the part of the Conservative voters of any county. The quarrels bemore of the past than of the pre sent, with which heretofore we have tinel should become unfriendly, we would not permit personal feeling which would jeopardize the inter-

How difficult that is, in view of the facts of the romination will only be known to those interested. The press, for the sake of the party. will not go into details.

We did hope to escape the reproach of our friends for infidelity to the party. We do not think we deserve it, and we are sure that if our friend of the Gazette will inform himself of the facts, he will acquit us of any wish to disturb its that harmony is subordinate to the idea to combat everything which threatens to destroy it permanently, and there is no greater danger than the persistent enforcement of personal claims to the total disregard of the rights and claims of others.

OVER-DRESSING AT SCHOOL.-The over-dressed school girl is attracting at ention all around. The Washing-

n Star responds as follows: There seems to be no need for the censure by some of the papers of the growing atendency to extravagance of dress in school children by which a spirit of caste in clothes has been introduced into the school rooms. The thing has gone on until whose parents can at best afford them but very plain dressing, which is always most proper, are made to feel an in-feriority altogether out of place in our public school system, which is professedly based on equality."

The Westmoreland Centennial in Pennsylvania, and the celebration of a similiar event at Charlotte, North Carolina, recalls the fact that the people of these two widely separated points were the same race and characteristics, and acted about the same time. They were both of Scotch; Irish descent. We suspect that an other declaration of similar import might be found in the Valley of Virginia or very near there-for a some what notorious individual named Tom Jefferson, is said to have producted a paper purporting to be a De-claration of Independence, at a very early day-some say the 4th of July, 1776-in that struggle.

The last time he watched the operation with great interest and articulated a few words, which he had not done for some time. He also moved his paralytic arm, and a few minutes afterward he fell asleep. His wife and family are represented to be greatencouraged. Similar operations have been performed recently on two patients in a St. Louis hospial, and in each instance the result is said to

Tae dignity of the law was seriously compromised at Cabot the other day in the person of John Damon, who went to the house of Joseph in the cellar. Sedatives alone will not cure nervousness. The reason that the nerves are so sus ceptible is that they are weak. Compensate for this deficiency of strength, and over-acute nervous sensibility disappears. The most rational, wholesome, and agreeable tonic is Hostetter's Stomach Buters. Medical men recommend its use for the cure of general debility, knowing it to coss-ss strength-giving properties of the highest order, and at the same time to be a means of reforming those bodily irregularities which induce nervousness and loss of vizor. It is the best known remedy for dyspepsia, whether nervous or billious, and is powerfully censervative of a regular habit of body. As it is notorious that those who are afflicted with weak nerves, billionsness or constipation, are peculiarly itable to the influence of malaria, it is invaluable to such persons on account of its preventive efficacy. It endows the body wit health, and the mind with cheerfulness.

A number of sharpers travelling with a show that passed through Winston last week were arrested for stealing and gambling, and consigned to the "to nbs" of Forsyth county.

The unkindest cut of all is the Fayetteville G zette, which is so highly lated over the recent municipal election in that city, a-king the Wilming-Star for the use of his Roosters hat could not be used in the Star report of the Pender county election.

Forsythe has held a Centennial meeting and a pointed Marshals to conduct the delegates from the county which is expected to be large.-The meeting also made an appropriation for the purchase of a suitable banner for the delegation.

What with the Editorial Convenon the 11th at Wilmington, and the Grand Lodge of Odd Fellows on the same day at Elizabeth Ci y, and the Medical Convention at Wilson on the 19th, and the Centennial at Char otte on the 20th, the editors of the State will be kept quite busy. Some of them must, indeed, be ubiquitous to attend all -Manning.

The Late Great Cyclone .

The cyclone on last Saturday afternoon proves to be equally as bad if not worse than the one of the 20th of March, which proved so disastrous in certain sections of North Carolina. It swept across Georgia and South Carolina, doing immense damage. The Augusta Constitutionalist has had a reporter to follow its track, and here is a synopsis of what he says

entered Georgia in Harris county several miles north of the point where the one last March crossed the Chat-tahoochee from Alabama. It then wept with desolation and through Merry wether, Upson, Henry, Butts, Newton, Morgan, Greene, Oglethorpe, Wilkes and Lincoln. and then crossing the Savannah, enfield, Lexington and Richland coun-

The reporter's account fills up eight columns of the Constitutionalist, and the Charlotte Observer thus condenses The first sufferers were the family

of a Mr. Norton, fiving near Covington. His house was lifted up and dashed to pieces, killing or dangerously wounding the whole family. The next were at Union Point, where t demolished a Justices court which was in session at the time. Every uilding but one at this station was blown fifty yards and his brains dashed out against a pine stump, and twenty other persons seriously injured. Fontenay mills was next the scene of disaster. Mr. Asbury's resi-dence was blown entirely away, and little left to show that there had ever een a building on the spot. All the uses of the factory hands were lown down too. Bairdstown suffer ed terribly too, and a young lady of that town saved her father's houseby running in the face of the storm and

losing the front door. Six miles west of Covington, Cap-ain G. M. Cunningham suffered the total loss of his mansion and its ontents. His wife and four chiliren, in the building at the time i fell, escaped unhurt. It is said this ious lady left her childern in one room and repaired herself to an adoining apartment to pray to the Ruler of the elements when the temest burst upon her home. Cats. hickens and guineas, were killed on the place by the furious blasts. A oard from the wheat house was found three miles from its point of departure in a reverse direction to the course of the storm, and letters were blown seven miles to Coving-ton, which were picked up and returned to Capt. Cunningham. Bedding was lodged in tree tops half a mile away, and a heavy twelve inch imber plate, sixty feet long, was lifted to an adjoining plantation. A negre named Andrew Tillman, in n outhouse, was struck on the forehead over the left eye by a descending ratter, the skull fractured, and

several pieces of bone driven into

the brain. These were extracted by Drs. E. V. Branham, Hendrick and

Yancey. Chick ens andother fowls

ere carried by the storm three and The description of the destruction of the little town of Rutledge, given by the reporter, is very graphic. It ems that during the storm Mr. R B. Ethrige, railroad agent, a gentleome forty years old, stood on the track near the depot watching the departing train and the coming storm. In a trice he was caught up by the winds and dashed to the ground. decognizing the danger of the situation, he grasped the iron rail near him and wound both arms around it in his prostrate condition. Holding tightly for dear life in this manner, he was enabled to control his body and legs from the fury of the tempes but he was beaten up and down against the ground in this position for the space of two minutes. On getting up during a momentary lull, to try and make the shelter, he was

blown under the depot.

It is impossible, so far, to estimate the damage done to this devoted vil-lage. In Newton county, a man and two negroes are reliably reported to have been here killed, and Mr. Treadway, living on Canton creek, to have been caught up and carried away, and to be yet missing in spite of search. Widow Holloway's house was blown down and that lady very terand to be yet missing in spite of search. Widow Holloway's house was blown down and that lady very terribly wounded, several of her ribs being broken and torn from her back by falling timbers; and several of W. F. Harden's children were seriously hurt. Mrs. Nelson was badly injured by broken rafters. On the west side of the county the appearance of the cyclone is described as that of flaming fire, for five or ten foot from the ground.

The Great Revival - A Christian Convention.

London, May 5.—The Christian Convention met to day in the Hay-market Theatre. Mr. Moody, the American revivalist, was chosen Chairman. Canon Battersby, of the See of Carlisle; Canon Fremantle, chaplain to the Archbishop of Canterbury; Lord Cholmondeley, the Rev. Mr. Aiken, and many hundreds of other clerical delegates representing the principal towns in the King-dom, were present. The Rev. Mr. Kilman, of Edinburgh, in an address stated that the results of the work of Moody and Sankey in that city were truly marvellous. Three thousand persons had been converted, and the number of drunkards and theatre-goers who had been reclaimed was remarkable. The Rev. Mr. Van Meter, delegate from Rome, gave an interesting account of the progress of revivatism there. Addresses were also delivered by delegates from other points on the Continent.

The Boston Journal has despaired of making Grant speak on the third term question, and the reasoning it resorts to in the effort to conceal its chagrin is somewhat amusing. A few days before the Lexington centennial it announced that his silence was severely injuring the Republi-can party, but buoyed up the hopes of its readers with an expression of the opinion that the patriotism of the occasion would unseal his lips. The centennial came and Grant came also, but remained as dumb as a sphinx, though not quite as im-movable, it must be confessed, for history will record that he bowed. and now the Journal says:

"It really is hardly worth to discuss this matter, but since it has been forced upon the notice of the country and the President tacitly turned it over to the Republican masses it s well enough to take one practical look at it, in order to see its utter trivia ity and emptiness. It is time to consider the questions which are really before us, and which are of real importance."

Senator Jones, of Nevada, who has obtained control of a process for the artificial manufacture of ice, has begun the erection of factories for that purpose in the cities of Galveston, New Orleans, Mobile, Atlanta, Savannah and Augusta.

Mr. David Sinton purposes putting up at Cincinnati a granite tower 160 feet high, square below and octagonal above, with a statue on top.

is no new or untried manure. It has been before the public for upwards of ten years, during which time it has been steadily growing in reputation, antil it is now universally recognized as one of the most uniformly seliable concentrated fertilizers in the market. It is manufactured from the best and purest raw materials, every one of which is subjected to chemical analysis before being used. The purity of the fertilizer is thus assured. In addition to this, every step of its manufacture is conducted under the strictest chemical supervision, so that farmers are thus guarded at every point from any danger of using an inferior article. Louisburg N. C., Nov. 9, 1874. Messrs. Sing, White & Shaw:
Gentlemen:—In reply to your inquiry as to my opinion of Whann's Raw Bone Super-Phosphate, I unhesitatingly say that by comparison with other fertilizers during the last three years, I am satisfies that Whann's has turned out better crops for me than any other, and I expect to continue to use it.

Yours truly,

John E. Thomas.

Messrs, Williamson, Upchurch & Thomas, Raleigh, N. C.:
Dear Sirs:—At the Orphan Asylum in Oxfor! a very decided success has attended every application of Whath's Raw Bone Super-Phosphate. The land was poor, and the s ason dry, but the cross surpass dourex ectations. Such a fertilizer will work its own way, because those who have used it once will want it again.

J. H. MILLS, Supt. Louisburg, N. C., November 7, 4874. Messrs, King, White & Shaw:

I have used Whann's Raw Bone Super Phosphate for the past four years, and am so well pleased with its result on my cotton crop that I have no wish to buy any other NORRISS MERRITT.

Messrs. Waltor, Whann & Co., Wilmington, Del.:

Dear Sirs:—In response to your inquiry as to the action and worth of Whann's Raw

The President has authorized and designated George W. Taylor of Pennsylvania to perform the duties of Supervising Inspector General of the Inspector service during the absence from time to time of the officer. It has been decided by the Treas-

ury department that steamers or-iginally built carrying freight and afterwards changed to passenger steamers must be provided with the cross bulk heads regained upon vessels built as passenger steamers. Also that old borders may be used on new boats if they have previously been inspected and found to meet the requirement of the law in force at that time, and may be allowed such pressure as upon test they may be capable of bearing.

Mr. J. M. Robinson was unanimously reelected President of the company.

NORTH CAROLINA.—The great and glorious success of the North Carolina Conservatives in the local elections of Monday last, ensures beyond ques-tion the election of Conservative del-egates to the approaching Constitu-tional Convention. The Radicals, having carried the new county of Pender by a scratch," were disposed to interpret their unexpected victory into an assurance that they would control the State Convention. We suppose they are better informed now of the State of political sentiment in the Commonwealth, and are convinced that they cannot capture it by the same foul means which prevailed in 1872, under the auspicies of Pool and "Fat" Carrow. The Democracy, however, while having every good reason to be encouraged, should not relax their efforts, nor allow the con-quering column of the party to let grass grow beneath its feet. It should also make special efforts to have the best men chosen to the convention, so that its deliberations and its action may reflect credit on the wisdom of the party, and disarm its enemies of their suspicions and false accusa tions .- Petersburg Index.

The following is from Wilton, Iowa: "A girl, in the abscence of her father, was so undutiful as to drive her step-mother out of the house and set up an intimacy with some young men which was not at all to her credit. Her behavior was atrocious and deserved severe punishment, yet she was only sixteen years of age, and parental authority and the laws of the State would have provided ample punishment. Yet the excitable matrons of Wilton could not wait. They forced their way into the house, turred and feathered the girl, dragged her out of doors dead and compelled her to leave town. Sne found a refuge in Davenport with an old colored woman, who gave her shelter and kept her from that persistence in evil courses to which the rage of her persecutor was likely to compel her. It is gratifying to find that the amazons are not to go unscathed. The father's anger with his daughter has been appeared by his sense of her wrongs. He has brought suit for \$20,000 damage against ten married women and one spinster for their as-sault on the girl, and also one for \$1,000 for their damage to his property. He may not get all he asks, but the petticoated lynchers are likely to smart for their crime.'

IMPORTED ONLY BY THE GUANAHANI GUANO COMPANY.

PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling astisfied that the high opinion, we formed, and expressed last season based on its Chemical Constituents, have been most satisfactorily borne out by the test, by which all Fertilizers must be judged, that of the Plantation. Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fail, and having large and well ventilated Warehouses in the city of Petersburg and at City Point, we are enabled to put our Guano on the market in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

ilizer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. Having nothing to conceal, we made no innovation on established usage, by publishing those letters received unfavorable to our Guano, but careful inquiry in many cases proves that the c-use of its faiture was not owing to any fault in the Guano, but to those far beyond our control. We have frequently heard the same complaints of its kindred Fertilezer, Peruvion Guano, but the concurrent testimony of well known Farmers and Flanters from Maryland to the extreme Western counties of North Carolina, justify us in claiming place for our Fertilizer Superior to many, and sage and to North Carolina, justify us we confidently expect the continued patronage of the Agricultural Community and no exertion will be spared on our part to make
